Why you should use IKS?

- ✓ because IKS supports you to realize a stable and very visual material flow based on the PULL principle
- ✓ because IKS supports your Kanban processes to make them better, faster and more simple
- ✓ because IKS is a software system which has been designed especially for Kanban
- ✓ because IKS can be used for internal as well as external Kanban processes
- ✓ because IKS has been developed based on the input and requirements of very experienced Kanban users (and it will be improved also on their requirements and ideas)
- ✓ because IKS helps to provide fast information to take the right decisions
- ✓ because IKS reduces time and costs to manage and maintain your Kanban system
- ✓ because IKS helps to improve important logistic KPIs
- ✓ because IKS works as interface between your Kanban system and the existing ERP/MRP system
- ✓ because IKS can be used from the beginning of the Kanban implementation process
- ✓ because IKS can be extended fast and easy to support the Kanban roll-out
- ✓ or say it in simple words: **because IKS is one of the best e-Kanban systems of the world!**
