

## manufactus GmbH

### Who we are

manufactus, founded in 2003 and located in Starnberg (close to Munich, Germany), designs and develops innovative software solutions to optimize production and logistic processes.

Our objective is to supply software tools to support internal production processes, optimize the supply chain and to enable the customer to improve the processes continuously. Hereby we strongly support the principles of Lean Manufacturing, Kanban and the Toyota Production System.

Especially we are focused on the development of (electronic) Kanban solutions to support and improve the PULL processes. In this business we have experience for many years and we offer with our e-Kanban system IKS (it stands for Integrated Kanban System) a software suite which is used by customers worldwide.

We offer all required services to support our customers. Our services include workshops for e-Kanban process definition and clarification of all customer requirements, as well as software services like implementation, training, programming and "after-sales-services" to improve the business of our customers continuously.

Additionally we support our customers at the implementation phase of their Kanban system or other "Lean principles".

# Our Strengths and Values

## Customer focused

- > Design of the best Kanban processes
- > Realization of customer requirements and objectives
- > Sustainable support of our customers

## Know-how

- > More than 10 years experience in the area of electronic Kanban
- > Experience with very simple, but also with complex scenarios
- > e-Kanban supplier, but also supplier of very deep Kanban knowledge

## Flexibility

- > Flexible and fast decisions
- > Direct contact to decision makers
- > Adjustment of our decisions based on objectives and conditions of our customers

## Kanban Solutions

## Customers
